

Protect Your Patients

- **Reduce impact shock on joints and soft tissue by up to 90%**
- **Decrease pain and injuries like:**
 - Patellar Tendonitis
 - Stress fractures
 - Plantar Fasciitis
- **Speed rehabilitation**
- **Increase performance**
- **Protect from fall-related injuries**
 - Will not effect balance
 - Molded-in edging

**SmartCells®
Therapeutic Flooring**
Custom cushion zones

SmartCells Mats®
SmartCells® technology supports, cushions and rebounds

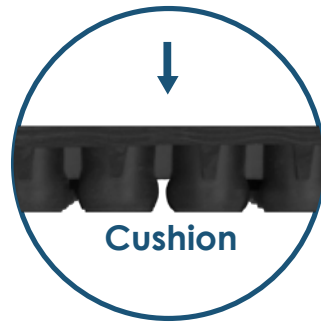

“I can do more
with less wear
and tear on
my joints”

SmartCells® Insoles
Dynamic cushioning when you are on the go!
Ventilation holes for added comfort

SmartCells® is a stable surface that will not impair balance

SmartCells® get softer as they are compressed

SmartCells® respond dynamically like springs

Colors: Black, Grey & Light Brown

Sizes:

S: 36" x 60" x .5"

M: 52" x 60" x .5"

L: 52" x 88" x .5"

Custom Sizes

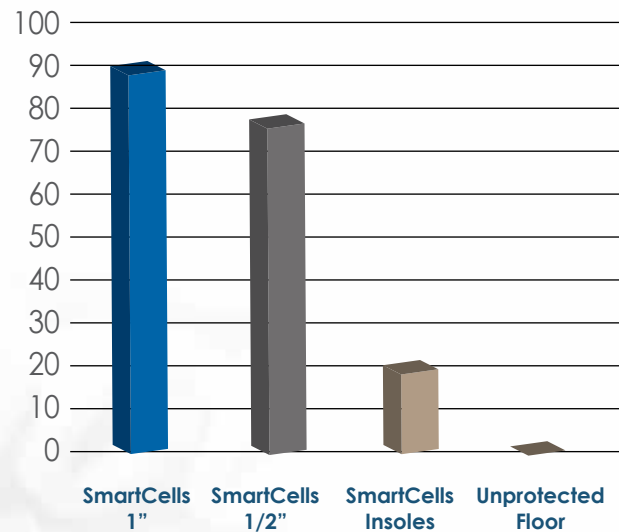

Technology

Cylindrical rubber cells soften in response to surface pressure and absorb impact energy.

The unique structure becomes softer as compressed.

SmartCells® rebound instantly as weight is shifted for optimized stability, support and response.

% Force* Reduction with SmartCells®

Test Method: ASTM F355 - 10a
(*peak impact force)

SmartCells® Insoles

There's a new footprint in town.

Unload impact stress when you're on the go! Dress, Sport & Work Insoles available.
